January 11, 2002

Sir:

Prior to examination, please amend the above-identified application as follows.

IN THE CLAIMS

Please amend the claims as follows:

1. (Amended) An image data conversion apparatus for converting transmitted compressed image data into image data of a different format and displaying the converted image data on a display apparatus, comprising:

a first signal processing unit for receiving and decoding said compressed image data;

a recording unit for recording the decoded image data, said recording unit reading out said image data one line by one line at a scanning line period of said display
